

Course: Refugees, Migration and Justice

Lecturer:

[Mr.J.G.C.Wiebenga](#)

Aims:

The aim of the course is to provide students with an understanding of the structure, the functioning and the prospects of the common EU asylum and migration policy. This policy will be studied within the context of the area of freedom, security and justice. We will focus on immigration policy, on asylum policy and we will also examine the legal instruments. Part of the course will entail a case-study of an EU directive.

Students are expected to locate their own materials for their essays and presentations. The selection below is intended to be indicative of the type of materials easily available to you, and may give you ideas of the scope of the subject and possibly also for essay topics. EU Documents will be given in class.
